

Introduction

The Aluminium Frame Support Kit is a versatile accessory compatible with the Lastolite By Manfrotto Skylite panels, Panoramic backgrounds, EzyFrame backgrounds and the StudioLink Chroma Key background system.

This useful adjustable support can be used in three different ways. **The first application** is as a handle for Skylite panels*. **The second application** is as a support leg. **The third application** enables the user to support a Skylite on the ground at different angles depending on the length and angle of the leg, creating a useful directional fill light.

*Cannot be used as a Handle grip on 3x3m Frames

Aluminium Frame Support Kit shown in 'handle grip configuration' with 1.5 x 1.5m Skylite Rapid

Aluminium Frame Support Kit set up in 'leg configuration' with EzyFrame Vintage Background and optional Sand Bag
